## **National Institute for Rubber Training**

The Rubber Board through its R & D activities has been developing expertise on all aspects of rubber cultivation, processing and product manufacture since its inception. The consistent efforts made to improve on-farm and shop-floor technology, besides supporting the rubber sector have provided the Board with confidence to train the personnel involved in the up and down stream activities of the industry on scientific techniques to achieve cost and quality competitiveness. The new technology is delivered to the clientele through the National Institute for Rubber Training (NIRT).

NIRT is located close to the Rubber Research Institute of India (RRII) at Puthuppally, 8 km to east of Kottayam in Kerala State on the South Western coast of India. The nearest airport is the Cochin International Airport, 80 km to the north and railway station is at Kottayam. The road approach is by the National Highway 220 Kottayam Kumali Road (Please see the road map provided).

The NIRT has state of the art facilities including air- conditioned training halls, training laboratories, well-stocked library, museum, computer centre, auditorium, neatly furnished hostel with ordinary and air-conditioned rooms, canteen, recreational facilities, physical fitness centre all set in a beautiful building (3710 m² floor area) with a landscaped garden. The training institute also utilizes the excellent laboratory facilities of the RRII. The campus is nestled in a quiet valley away from traffic and noise, an ideal location for learning.

#### **Application and other information**
